To Whom It May Concern,

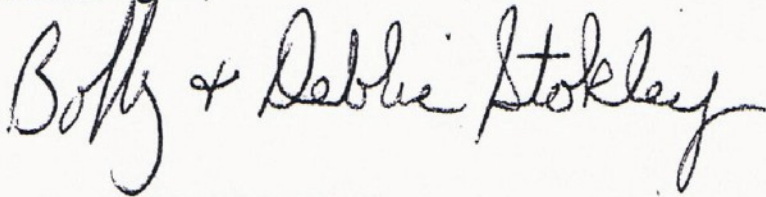

This letter is in appreciation of your company. During the year we called and made an appointment concerning your vinyl siding. Your salesman, Mark Domingue, came and spoke to my husband and I. He was able to answer our questions in detail. We were also impressed with the quality of your product.

Once we decided to have the siding installed on our home we were very impressed with the excellent service from your installers. They worked in a very professional manner.

Our home does not even look like the same home. And going beyond the looks of the home our utility bills are now lower. It is unbelievable the difference your siding has made for all aspects of our home.

We highly recommend your product to others.

Thanks again,
