RE: Satisfied Customers

Dear Jim,

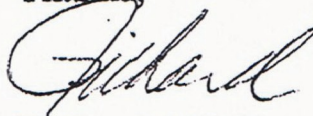

We are pleased with the quality of your vinyl siding with the foam backing. It has reduced outside noises significantly. The siding is so well sealed and insulated that I am sure a reduction in utility cost will be realized.

We are pleased also that your product has a Lifetime Warranty which, covers the main concerns of individuals using vinyl siding on homes and building projects. It is truly impressive, to say the least.

With relevance to the sales presentation and/or, the installation and closing process, we were both pleased. Your representatives all appeared sincere, had a hassle free attitude and were eager to please. The product installers were proficient and did not compromise the quality of their work.

We would both recommend your product and workmanship.

Thanks,

Richard J. Trahan
